

## Community Cohesion Statement

At Stow-on-the-Wold Primary School we welcome you if you have a disability or learning problems we try to make you feel better about yourself by helping you feel included.

We welcome children who aren't confident and will help them with their learning. We also welcome children from another country and if you belong to a different religion. Whatever your family's background we will include you.

We welcome people back when they have been away and we show everyone in our school respect.
